

# Fleur de Lis ●●●●●

Difficulty: Advanced

You will need:

The highlighted crystal arrangements from the **CEIVA Dazzle Crystal Kit** (available at [ceiva.com/store](http://ceiva.com/store))

The **black** faceplate from your CEIVALife, CEIVA Pro 80 or CEIVA 8-inch Digital Photo Frame

A pair of scissors

## Directions:

1. Remove black faceplate from CEIVA frame
2. Remove crystal strips from plastic backing.
3. Look for the three petal formation that repeats on each strip and count three crystals from the tip of the petals. Snip carefully between the 3<sup>rd</sup> and 4<sup>th</sup> crystal on either side.
4. Cut twelve petal formations in this way.
5. Loosely place one formation in each inner corner of the faceplate, petals outward-facing, as shown. Place two along each border, spacing them evenly, as shown.
6. From the remaining crystals, snip twelve individual crystals apart and place between each petal formation as shown.
7. When placement is finalized, press all crystals firmly into place.
8. Replace black faceplate onto CEIVA frame.
