

The Garden

•••••

Difficulty: Beginner

You will need:

The highlighted crystal arrangements from the **CEIVA Dazzle Crystal Kit** (available at ceiva.com/store)

The **black** faceplate from your CEIVALife, CEIVA Pro 80 or CEIVA 8-inch Digital Photo Frame

Directions:

1. Remove black faceplate from CEIVA frame
2. Remove crystal strips from plastic backing.
3. **Loosely** place the crystal strips along the inner border of the frame as shown, matching the ends of the pieces to give a flowing, continuous effect.
4. When placement is finalized, press all crystals firmly into place.
5. Replace black faceplate onto CEIVA frame.
