Six easy steps to connect to your smart meter and the internet.

One simple number if you need a hand. Just call CEIVA Customer Care toll-free at 1-888-670-3580.

1   Set Up Your CEIVA Homeview Display

Find a place in your home that is in range of your WiFi.
Plug in your display.

2   Connect Your CEIVA Homeview Display to Your Smart Meter

The display will auto join within 5 minutes and indicate
energy data within 15 minutes.

Alternatively, use your CEIVA Homeview remote. Press
'Menu' and select 'Connection Wizard'. If the display
indicates "Disconnect from your Smart Meter" then your
display is already connected. If not, select 'Connect to your
Smart Meter' to start the connection process. A 'success'
screen will appear when your display has
connected to your smart meter.

3   Get Connected to Wireless Internet

Go back to the 'Connection Wizard' and select 'Connect
to the Internet'. Follow the steps on the screen to set up
the internet connection. At the end, select 'Go' and your
CEIVA will be ready to receive photos.

4   Register Your CEIVA Homeview Display

Go to www.ceiva.com/hawaiienergy and click on the
'Register my CEIVA Homeview' link. Unless you are
already a CEIVA customer, you will need to create a new
CEIVA account.

Next, enter the 12-digit serial number located on the outside
of the box and under the back panel of the display.

5   Monitor Your Home's Energy Remotely

Download the CEIVA Homeview app to your mobile
devices and experience the easiest and most popular
way of monitoring your home energy.

6   Display your favorite photos

Download the CEIVA Snap app to send photos to your
Homeview display - instantly. Be sure to take a look at our
photo plugins and invite your friends and family to share
their pictures on your CEIVA Homeview display too! Your
ceiva.com account has unlimited photo storage.

Apps are available for iOS and Android devices
