

Seven easy steps to begin your Homeview experience.

1 Set Up Your CEIVA Homeview Display

Find a place in your home that's close to your smart meter and in range of your WiFi and plug in your display.

2 Create (or login to) Your Smart Meter Texas Account

Go to: www.smartmetertexas.com/CAP/public/
You will need your ESI ID (from your power bill) and your Meter Number (from your bill or meter) to create your new account.

3 Connect Your IHD to Your Smart Meter

In the Smart Meter Texas Portal, select the "In-Home Devices" tab and select "Add an In-Home Device". Enter the following: Type of HAN Device: "In-Home Display". MAC Address and Install Code (Located on the outside of the box.) Select "Add In-Home Device". Using your remote, select 'Connection Wizard' from the display menu, then select 'Connect to Meter' and follow the instructions.

4 Register Your CEIVA Homeview Display

Go to: www.FrontierUtilities.com/FreelnHomeDevice and click "Register my CEIVA Homeview Display". For more information click "Learn About Your CEIVA Homeview".

5 Connect to WiFi

Using your remote, select 'Connection Wizard' from the menu screen and follow the instructions.

6 Monitor Your Home's Energy Remotely

Download the CEIVA Homeview app to your mobile devices and experience the easiest and most popular way of monitoring your home energy.

7 Display your favorite photos

Download the CEIVA Snap app to send photos to your Homeview display - instantly. Be sure to take a look at our photo plugins and invite your friends and family to share their pictures to your CEIVA Homeview display too! Your ceiva.com account has unlimited photo storage.

Apps are available for iOS and Android devices.
